FIG. 3

FIG. 4

FIG. 7 is a schematic diagram of a circular structure, possibly a lens or a mirror, with various labeled components and dimensions. The diagram includes the following labels and dimensions:

- W0**: A horizontal dimension line at the top, spanning the width of the circular structure.
- W2**: A horizontal dimension line below W0, also spanning the width of the circular structure.
- S1**: A horizontal dimension line above the circular structure, spanning a portion of its width.
- W1**: A horizontal dimension line below S1, spanning a portion of the circular structure's width.
- E1**: A label pointing to the top edge of the circular structure.
- I1**: A label pointing to the top edge of the circular structure, below E1.
- I2**: A label pointing to the top edge of the circular structure, below I1.
- H**: A label pointing to the top edge of the circular structure, below I2.
- C**: A label pointing to the top edge of the circular structure, below H.
- T**: A label pointing to the top edge of the circular structure, below C.
- S4**: A label pointing to the top edge of the circular structure, below T.
- M1**: A label pointing to the left edge of the circular structure.
- M2**: A label pointing to the right edge of the circular structure.
- S2**: A label pointing to the bottom edge of the circular structure.
- E2**: A label pointing to the bottom edge of the circular structure.
- 62**: A label pointing to the bottom edge of the circular structure, below E2.
